

FUEL STABILIZER + WATER REMOVER

STP® Fuel Stabilizer + Water Remover is designed to prevent fuel degradation and gum formation in the fuel system during extended storage for easy start-up. It suspends and dispenses water condensation and helps to prevent corrosion and rust, keeping the fuel system clean.

This product is ideal for use in both 2- or 4- cycle gasoline engines and is suitable for year round use in all ethanol blended fuel (E10-E85) and marine applications to protect against phase separation of fuel.

Performance Features & Benefits:

- Prevents fuel line freeze, gum formation & fuel degradation
- Fights corrosion and rust to keep the fuel system clean
- Promotes easy start-up after storage
- Suitable for ethanol blended fuel

Treat Rate:

473 mL bottle treats up to 145 L
946 mL bottle treats up to 290 L

30 mL (1 oz) treats 9 L of fuel. Add appropriate amount of fuel. Run engine for 5 minutes if being placed into storage.
