

FUEL STABILIZER

STP® Fuel Stabilizer is designed to prevent fuel degradation and gum formation in engines that are being used infrequently or stored for a long period. Special additives work to keep the fuel fresh for easy startups after storage.

Fuel stabilizer eliminates the need to drain the fuel, and it prevents corrosion from moisture during storage. It mixes readily in all fuel types (gasoline, diesel) and is safe for year round use.

Performance Features & Benefits:

- Prevents fuel degradation & gum formation
- Additives keep the fuel fresh during storage
- Promotes easy starts after storage
- Prevents corrosion from moisture during storage

Treat Rate:

473 mL bottle treats up to 145 L of fuel

946 mL bottle treats up to 290 L of fuel

30 mL (1 oz) treats 9 L of fuel. Add appropriate amount of fuel. Run engine for 5 minutes if being placed into storage.
