Ideal for the Toughest Cleaning Jobs.

PAINT THINNER

- Spotless removal of oil & grime
- Degreases tools & auto parts
- Fast cleaning for brushes, rollers & trays

Removes and cleans tough stains, grease, grime, dried paint, sap, crayon, wax, glue, sticky residue & more for a professional performance every time.
*Safe to use on most surfaces whether bare, painted, stained or treated.

Reduces Coating's Drying Time & Degreases Tools.

XYLENE

- Thins specialty coatings & synthetic enamels
- Reduces drying time of paints, coatings & synthetic enamels
- Cleans and degreases tools & equipment
- Dissolves tar, wax & tree sap

Quickly Dissolves, Cleans & Degreases.

TOLUENE

- Accelerates curing time of oil-based paints & lacquers
- Removes inks & adhesives from surfaces
- Degreases metal tools & equipment

Medium drying time, less volatile, & slower to evaporate.

Quickly Dissolves, Thins & Degreases.

METHYL ETHYL KETONE (MEK)

- Dissolves resins, contact cement & adhesives
- Thins acrylics, lacquers & epoxies
- Degreases fibreglass repair tools

Evaporates quickly.

Ideal for Indoor Cleaning Jobs.

LOW ODOUR PAINT THINNER

- Cleans and degreases floors, walls & tools
- Improves flow, penetration & levelling
- Thins oil-based paints & coatings

Solvable Low Odour Professional Grade Paint Thinner containing Mineral Spirits is a versatile thinner and cleaner that is safe for use on your finishes. It gets the job done, without the strong odour.
*Safe to use on most surfaces whether bare, painted, stained or treated.

Best for Preventing Gas Line Freezing.

METHYL HYDRATE

- Cleans glass, metal, carpet, leather, asphalt and many other surfaces
- Thins Shellac
- Removes superglue and other adhesives
- 99.9% pure

Solvable Professional Grade Methyl Hydrate is a versatile product with multiple cleaning and thinning uses. It also has a low freeze point which makes it suitable for many de-icing applications.

Gentle Yet Effective on Multiple Surfaces.

MINERAL SPIRITS

- Cleans multiple surfaces
- Removes grease & wax
- Cleans & restores paint brushes & rollers

Solvable Professional Grade Mineral Spirits is strong enough to get the job done but gentle and safe on your finishes. This versatile product is safe to use indoors on multiple surfaces as well as outdoors.
*Safe to use on most surfaces whether bare, painted, stained or treated.

Powerfully Dissolves Tough Coatings & Adhesives.

LACQUER THINNER

- Thins lacquer & automotive coatings
- Cleans paint equipment
- Removes residue from hard surfaces

Solvable Professional Grade Lacquer Thinner is an extreme product that breaks down and dissolves thick varnishes and paints, lacquer, oils, grease and other caked on or stubborn adhesive materials. You can use it to dissolve, dilute and clean up basic lacquer items.

SolvableWorks is your solvent resource that helps you select the right product for any task.

Ideal for the Toughest Cleaning Jobs.

PAINT THINNER

- Spotless removal of oil & grime
- Degreases tools & auto parts
- Fast cleaning for paint equipment

Solvable Professional Grade Paint Thinner containing Mineral Spirits helps remove and clean tough stains, grease, grime, dried paint, sap, crayon, wax, glue, sticky residue & more for a professional performance every time.
*Safe to use on most surfaces whether bare, painted, stained or treated.

Quickly Dissolves, Cleans & Evaporates.

ACETONE

- Thins fibreglass resin & removes adhesives
- Dissolves two-part epoxies
- Cleans tools used for epoxies & lacquers

Solvable Professional Grade Acetone is an effective solvent that is excellent for dissolving two part epoxies before they set, for cleaning fibreglass repair tools and for thinning fibreglass resins. It removes the sticky residue and cleans lacquer application tools.

Best for Thinning Wood Stains.

PURE TURPENTINE

- Gradual drying time for a smooth finish
- Thins artists' grade oil-based paints & coatings
- Protects natural bristle brushes

Solvable Professional Grade Pure Turpentine is excellent for thinning and cleaning oil-based paints, varnishes, wood stains and enamels. You can combine it with linseed oil to produce a "French Finish" on fine furniture.

Effectively Restores & Cleans Contact Cement.

CONTACT CEMENT THINNER/CLEANER

- Thins contact cement to original consistency
- Cleans wet solvent-based & dried contact cements

Solvable Professional Grade Contact Cement Thinner/Cleaner is an effective product that softens and restores thickened contact cement to its proper consistency.
